Letter To Employees

Dear Employee,

As an employee of Holmes District Schools, you make an important contribution to one of society's most important functions—the education of children.

Just a few generations ago, the opportunities for a formal education were available to a privileged few. Today, each child in America—regardless of race, color, religion, national origin, gender, or disability—has an equal opportunity for primary and secondary education.

Our goal is to prepare students for success in a rapidly-changing world by helping them obtain a quality education and become responsible citizens. Your job, regardless of title or responsibilities, supports these objectives.

We employ some of the most highly-educated teachers in the state and offer a variety of academic and extracurricular programs to prepare students for success in college, the workplace, and beyond. Our history of achievement makes us one of Florida's highest-rated school districts and Holmes County one of the most desirable places to live.

As a school district, we are responsible for the education and welfare of children in our community. As such, we receive the majority of our funding from the public and are highly regulated. To promote accountability, preserve the public trust, and ensure compliance with applicable regulations, our Board has adopted and implemented numerous policies and practices. This Personnel Handbook contains a summary of these guidelines to assist you during the term of your employment with Holmes District School Board.

I wish you every success in your career with us and hope you will derive great personal satisfaction from the contribution you make to the lives of area students and the welfare of our community.

Sincerely,

A handwritten signature in black ink, appearing to read "Eddie Dixon", with a stylized, flowing script.

Purpose of Handbook

We have developed this Personnel Handbook as a guide to help you during the course of your employment with Holmes District Schools.

This handbook is not intended to be all-inclusive or address every situation that may arise during the course of your employment, nor is it a substitute for Board policies or official statements. If there is any conflict between this handbook and a Board Policy, the policy takes precedence. For more information, please contact your worksite supervisor or the Human Resources Department at (850) 547-9341, or visit the District's website at: www.hdsb.org. Board policies are shown at the link under *School Board / Policies*.

The Superintendent of Holmes District Schools is responsible for administering the Board's policies, procedures, and provisions of applicable collective bargaining or employment agreements. The Superintendent reserves the right to alter the content or application of this Personnel Handbook. While reasonable effort will be made to inform you of changes as they occur, it is your responsibility to review District guidelines and seek clarification as needed.

This Personnel Handbook supersedes all other personnel handbooks or employee manuals for Holmes District Schools as of July 1, 2016.

REF: Policy 1.10

Alcohol and Drug-Free Workplace for Employees

The District realizes that the misuse of drugs and alcohol impairs employee health and productivity. Drug and alcohol problems result in unsafe working conditions for all employees and students. The District is committed to maintaining a productive, safe, and healthy work environment, free of unauthorized drug and alcohol use.

Any employee involved in the unlawful use, sale, manufacturing, dispensing or possession of controlled substances, illicit drugs and alcohol on district premises or work sites, or working under the influence of such substances, will be subject to disciplinary action up to and including dismissal and referral for prosecution.

In addition, the district has developed and maintains a comprehensive Drug and Alcohol Policy, which employees may obtain from Human Resources.
(See School Board Policy 6.33)

This policy is intended to deter the use of drugs and alcohol in the workplace by establishing standard procedures for drug and alcohol testing for all employees required to hold a Commercial Drivers' License (CDL). *Prohibited Substances or Drugs* means any illegal drug or substance as identified in Schedules I through V of Section 202 of the Controlled Substance Act (21 USC §812) and by regulations at 21 CFR §§1308.11-.15, including, but not limited to, marijuana, amphetamines, opiates, phencyclidine (PCP), and cocaine. Prohibited use includes both use of any illegal drug, and misuse of legally prescribed or obtained

prescription drugs.

Alcohol Use means the consumption of any beverage, mixture or preparation containing alcohol, including any medication or product.

Covered Employees means those School Board employees who are required to hold a commercial drivers' License as a condition of employment and in which a driver operates

- a vehicle designed to carry 16 or more passengers,
- a vehicle which weights more than 26,000 pounds, or
- a vehicle which carries a placard indicating hazardous cargo.

REF: Policy 6.60

REF: Policy 6.546

Dress Code

As professionals in our schools, we realize and value the public's perception of our roles as mentors and models for students. Therefore, during the school year, administrators, teachers, paraprofessionals, and office personnel are required to follow a basic dress code. The purpose and intent of the dress code is to assure that the school system staff projects a professional image to the public as well as to the students.

To promote professionalism and respect for authority, you are expected to adhere to the following standards regarding attire and grooming. While on duty, you shall:

- Be physically clean, neat and well-groomed;
- Dress in a manner consistent with your job duties;
- Dress in a manner that communicates pride in personal appearance; and
- Be groomed in such a way that your hair style or dress does not disrupt the educational process or cause a health or safety hazard.

All teachers and staff members are required to wear staff I.D. tags at all times while on school grounds.

If there are exceptions to the dress code, those will be handled on an individual basis by the principal at each school. NOTE: The direct supervisor is responsible for enforcing the dress code.

Those teachers who teach P.E. and related courses that require them to wear gym outfits will be excluded from appropriate parts of the dress code while teaching in their program areas.

Staff members are expected to dress professionally and may not wear jeans, shorts, jogging suits, or t-shirts (except on special event days and teacher workdays or as approved by the principal).

The bottom line is - Employees should always look professional and at a minimum meet the District Student Dress and Appearance dress code defined below:

DISTRICT EMPLOYEE DRESS AND APPEARANCE

Each employee is responsible for his/her own appropriate dress which shows respect for self and others and helps to create an orderly learning environment. The word "appropriate" shall be defined to include cleanliness, safety, modesty, and good taste. Inappropriate dress and actions disrupt the learning process and creates chaos.

To avoid distractions and to promote the health and safety of all employees, the following restrictions shall be in effect:

1. Dresses, skirts, shorts and skorts must be mid-thigh or longer.
2. Clothes bearing suggestive slogans or advertising alcoholic beverages and/or tobacco shall not be worn.

Blouses or shirts that are low-cut or see through may not be worn.
4. Body piercing jewelry other than earrings may not be worn.

2. The wearing of a blouse that exposes an employee's cleavage is inappropriate for the school environment.
3. The practice of wearing pajamas and household slippers will not be permitted.
4. Tattoos and/or body art that is lewd, related to gang activity, or other offensive words or symbols must be covered at all times.
5. If you have any questions, please speak with your administrative staff.

Electronic Resources

As a District employee, you may have access to computers, software, Internet access, networks, network devices, fax machines, telephones, voice mail, electronic mail and other systems provided by the District for business purposes. In accordance with its mission and goals, District resources shall be used in the performance of job duties and for school-related purposes. The use of electronic resources must comply with state and federal laws, the Code of Ethics, Principles of Professional Conduct of the Education Profession in the State of Florida, District policies and administrative procedures.

The District retains control, custody and supervision over all electronic resources (including but not limited to, computers, software, Internet access, networks, network devices, fax machines, telephones, voice mail, and electronic mail) that it owns or leases. Any information generated, stored or transmitted through electronic resources is the same as any written document and may be subject to Florida's Public Records Act. The District retains the right to monitor employee use of its equipment and systems.

Guidelines

Computer accessibility has enabled people all over the world to communicate via the Internet. With this access comes the availability of material that may not be considered to be of educational value

in the context of the school setting. There may be some material, individual contacts, or communications which are not suitable for school-aged children.

The Holmes District School Board views information retrieval from the network in the same capacity as information retrieval from reference materials identified by schools. Specifically, the Holmes District School Board supports those which will enhance the research and inquiry of the learner with directed guidance from faculty and staff. On a global network it is impossible to control all materials, and an industrious user may discover inappropriate information. At school, each student's access to and use of the network will be under the teacher's direction and monitored as a regular instructional activity. If the student uses the network outside the sponsoring teacher's class, the teacher will not be held accountable for inappropriate network use.

The network facilities are to be used in a responsible, efficient, ethical, and legal manner in accordance with the mission of the Holmes District School Board. Failure to adhere to these guidelines may result in the suspending or revoking of the offender's privilege of access.

This policy will provide guidelines for the Holmes District Schools' participation in and use of telecommunication services and networks for administrative and instructional purposes. District use of such networks is intended to advance and promote a world class public education in Holmes County for all students. Telecommunication services and networks permit access and exchange of information between and among schools, school offices; and members of the Holmes global community. Collaboration and exchange of information between and among students/teachers/expert resources statewide, nationally, and world-wide; the Florida Department of Education, and other state, national and international educational entities; and electronic bulletin boards are also a part of this service.

District participation in any telecommunication services networks shall provide for the following elements:

- Electronic messaging services, file transfer, and electronic conferencing capabilities to public school and district employees and authorized students;
- Intuitive, graphical user interfaces;
- Accessibility for the user via properly equipped microcomputers from a range of vendors;
- Opportunities for wider networking (interstate and international) by promoting appropriate access and use of full Internet and other telecommunication services where economically feasible;

All use of telecommunication services and networks shall be consistent with the mission, goals, policies, and priorities of the school district. Successful participation in a network requires that its users regard it as a shared resource and that members conduct themselves in a responsible, ethical, and legal manner while using the network.

Holmes County Schools' accounts shall be used only by the authorized users of the accounts for the purposes specified. Misuse shall result in the removal of participant access rights and authorization. Authorized users shall be ultimately responsible for all activity under their account and password.

Any use of telecommunications services or networking for illegal, inappropriate, or obscene purposes, or in support of such activities, shall be prohibited. Illegal activities shall be defined as a violation of local, state, and/or federal laws. Inappropriate use shall be defined as a violation of the intended use of the district's mission, goals, policies or procedures. Obscene activities shall be defined as a violation of generally accepted social standards for use of a publicly owned and operated communication vehicle.

Any use of telecommunications services or network for commercial purposes, product advertisement or political lobbying shall be prohibited.

No use of telecommunications services or networks shall serve to disrupt the use of the network by other users.

Unlimited and open-ended use of the telecommunications services or networks in terms of access time cannot be accommodated inasmuch as supportive financial resources remain finite. Users shall exercise prudence and "fairness" in the shared use of limited resources.

All communications and information accessible via the telecommunications services or networks shall be assumed to be private property. No guarantee can be made for the privacy of any communication on the network; however, authorized system administrators may access private correspondence and files if a user is believed to be in violation of this policy.

All network users shall adhere to the rules of copyright regarding software, information and the attribution of authorship. Reposting personal communications without the author's permission or bulletin board messages without proper attribution shall also be prohibited.

All members of the Holmes County Schools community shall be granted free and equal access to as many network services as school resources and availability of technology may permit.

To the extent reasonably possible, users of school sponsored telecommunications services and networks shall be protected from harassment or unsafe, unwanted or unsolicited contact. Users shall be made aware, and shall acknowledge their awareness that the designers of the network cannot eliminate, or in some cases properly restrict the possibility of unwanted access to users. Nor can users be completely prevented from accessing services or information that is offensive to or inappropriate for certain groups of users. Individual users must be responsible for their own access and conduct in using telecommunications services and networks. This responsibility and accountability for such conduct will be clarified through the access authorization forms and training.

Public school student use of the telecommunications services or networks through school equipment or authorization shall be properly supervised and shall require prior written approval from parents/guardians.

The superintendent or his/her designee shall be responsible for authorizing use of telecommunications services or networks in accordance with this policy.

Specific procedures for school and district individual staff, student or parent use of telecommunication services and networks shall be developed and periodically reviewed for effectiveness at the district level.

Each school or site administrator shall designate a person responsible for distributing access forms, authorizing access and maintaining all appropriate documentation.

While these guidelines are not all-inclusive, your use of District electronic resources is subject to the following provisions:

- There shall be no expectation of privacy with respect to business or personal communications generated, stored or transmitted using the District's electronic, business or communications systems.
- Incidental personal use is permitted as long as it does not interfere with your job duties or performance, system operations, or other users or increase costs to the District.
- Unauthorized disclosure of any confidential information regarding students or employees is strictly prohibited. You must comply with the Family Education Rights and Privacy Act (FERPA) and other applicable privacy laws and regulations.

- Passwords and accounts must be confidentially and securely maintained. The use of another's password without explicit permission is prohibited.
- Instant messaging systems are not secure and shall not be used to transmit student or employee information.
- Downloading music, videos and other Internet broadcasts is prohibited unless specifically authorized for short-term work- or school-related purposes.
- Use of District systems must not involve any prohibited activity including, but not limited to:
 - Harassment, threats, or other illegal or prohibited activity;
 - Obscene, pornographic, sexually explicit or sexually suggestive material or activity;
 - Inappropriate communications with students or minors;
 - Private commercial, advertising or business solicitation or for fund-raising for any nonschool purpose, unless authorized by the Superintendent;
 - Soliciting or communicating personal, political or religious views or representing such views as those of the District;
 - Dissemination of false information;
 - Intentional or unintentional misuse or damage to the District's electronic resources;
 - An unauthorized attempt to gain or deny access to, disrupt, alter, or destroy data or service of the computer or network system;
 - Attempting to access unauthorized sites by bypassing the District's Internet filtering system;
 - Using District resources for recreational games, unless for instructional purposes;
 - Unauthorized installation, connection or alteration to the Board's networking devices.
 - Downloading or installing software from any source without prior written approval from the Superintendent.
 - Unauthorized copying, transferring, removing, altering or communicating any District record or software for personal use or for the use of others.

You are encouraged to keep your personal business and records at home. All District communications devices including computers, telephones, voice mail and electronic mail systems are subject to the provisions of Florida's Sunshine Law.

The District is not responsible for unauthorized charges made by you, the illegal use of its computers, or for any damages suffered. The District makes no warranty of any kind and denies responsibility for the accuracy or quality of information obtained through its services or the Internet.

E-mail

Upon request by the District, you must provide copies of e-mail records in your possession, whether or not such records are on a District computer. To preserve the confidentiality of protected information, all information exempt from disclosure must be deleted prior to release of electronic mail.

- When available, the District's e-mail system must be used to send official District e-mail communications.
- Precautions should be taken when opening or forwarding e-mail attachments from unknown sources or which may contain viruses.
- Personal e-mail may be blocked at any time to ensure network security and prevent viruses and spam.
- Permission must be obtained from the site administrator prior to sending or forwarding mass e-mails or chain letters for District or non-District purposes.

- Participation in work-related news groups and mail lists is permissible provided they do not create an excessive amount of e-mail.

A violation of this policy may result in disciplinary action, up to and including dismissal.

REF: Policy 8.60

Emergency Closure and Evacuation of Schools

The Superintendent or, in the event of an extreme emergency, the Principal, may close or dismiss school prior to the regular daily dismissal hour. In the event of an emergency closure, school personnel shall maintain control over students until they are released from school or depart from the school bus.

In accordance with the emergency preparedness plan, appropriate personnel shall identify and promptly respond to all threats to the safety of District facilities.

At least two (2) emergency evacuation drills shall be held during the first month of school and one (1) evacuation drill each month during the remainder of the school year. The drills shall cover emergencies such as fire, bomb threat, foul weather, and regional or national emergencies and shall be designed to familiarize occupants with all means of exit, including special emergency exits, and appropriate emergency cover areas. Staff members shall be assigned responsibility for the prompt and orderly evacuation of school buildings.

REF: Policy 6.101

Employee Communications

To maintain open channels of communication, all District-related communications between employees and the Board shall be submitted through the Superintendent or as directed by the Superintendent.

When responding to the Board in writing or through e-mail, you shall send a copy of the communication and the original inquiry to all other Board members and the Superintendent. Official Board communications, policies and directives of interest to employees will generally be communicated by the Superintendent.

While interacting at social or other functions, Board members and you are likely to informally discuss educational trends, issues and other matters of interest. Board members cannot act on behalf of the Board unless in open public session or specifically authorized. Therefore, you should avoid discussing with Board members individual personalities, personnel grievances, complaints, or other issues subject to Board action, and such matters should be addressed in accordance with established procedures.

Nothing in this guideline is intended to deny you of your right to free speech or the right to appeal to the Board on important matters. You have the right to speak out on issues of public concern. However, in situations where personal interests conflict with those of the District, you should:

- Clearly state that the views are your own and not necessarily those of the School District;
- Refrain from expressions that may disrupt harmony among co-workers or interfere with the maintenance of discipline by school officials;
- Avoid making threatening, abusive or personally defamatory comments about District employees, administrators or officials; and
- Refrain from public expressions that you know to be false or that are made without regard to truth or accuracy.

Equal Employment Opportunity and Nondiscrimination

To ensure your right to equal employment opportunity and a nondiscriminatory workplace, the Board strictly prohibits any form of discrimination against applicants or employees on the basis of race, color, ethnicity, religion, national origin, age, gender, marital status, disability, genetic information, sexual orientation, gender identity, or other legally-protected characteristic in its programs and activities, including employment opportunities. It is the policy and practice of the District to prohibit discrimination on the basis of disability, to provide equal employment opportunity, and to ensure its facilities, programs and activities are accessible to qualified individuals with disabilities. If you are an employee with a disability, the District will make reasonable accommodation provided you are otherwise qualified to perform the essential functions of the job and the accommodation does not create an undue hardship on the operation of the Board's programs and/or activities.

Holmes District School Board does not discriminate on the basis of race, color, national origin, gender, age, disability, marital status or genetic information in its educational programs, services or activities, or in its hiring or employment practices. Standards of Ethical Conduct Pamphlet

GUIDELINES AND COMMON SENSE

- Code of Ethics mandates you value the worth and dignity of individuals, to place as your primary concern, the development of each student's potential, and achieve and sustain the highest degree of ethical conduct.
- Principles of Professional Conduct obligate you to perform standards of behavior dealing with STUDENTS, and the PUBLIC, and the PROFESSION.
- In addition to the more obvious actions (i.e. child abuse/molestation), you can be charged with the crime of moral turpitude or gross immorality if you shoplift, drink on school grounds, have multiple arrests for DUI, possess or sell drugs with or without student involvement, make comments of a sexual nature to students, fondle or touch students in an inappropriate manner, commit food stamp or public assistance fraud, commit assault, misuse school funds, or submit fraudulent transcripts. These examples are by no means all inclusive.
- As you can see, we are held to a higher moral standard than other professionals because of our role in educating children. You are held accountable for your private life as well as your public life.
- Keep in mind that few educators ever commit violations.
- It is best to arm yourself with knowledge so that you do not advertently or inadvertently violate any standards and become one of the statistics.
- Many problems educators have encountered could have been avoided had they used some common sense and rational judgment.

(See School Board Policy 6.27, Professional Ethics.)

HOW TO USE COMMON SENSE AND PROFESSIONAL JUDGMENT TO AVOID LEGAL COMPLICATIONS IN TEACHING

Interaction with Students

1. Maintain a professional barrier between you and students. You are the adult, the teacher, and the professional; act like the expert not like another one of the "kids". Having their respect is more important than being a "pal or buddy"!
2. Keep the classroom doors open and/or unlocked when talking with students.
3. Refer students to the appropriate resource person for counseling and/or discussions about personal matters.
4. Do NOT flirt with students or other staff members.
5. Do NOT discuss your personal life or personal matters with students. Do NOT discuss your husband, wife, girlfriend, boyfriend, or dates with students.
6. When transporting students, coordinate transportation ahead of time, and use school or mass transportation if possible. If you must transport a student in your vehicle, ask a co-worker to accompany you.
7. Do not leave your students unsupervised; have an alternate plan of action.
8. Keep your hands and other parts of your body to yourself. Students who observe male and female staff members "touching" even in a casual manner interpret this in a serious way.
9. Use verbal praise and reinforcement.
10. Know your school policies and district and state laws governing corporal punishment. Establish and follow a consistent behavior plan. Treat each student with respect. Know the student's rights.

11. Do not socialize with students. If you chaperone a field trip, put in writing what your responsibilities will be. Do NOT drink alcoholic beverages in front of students. Do NOT take children home with you.
12. Do NOT make telephone calls, send e-mails, or write notes of a personal nature to students.
13. Do not harass students. Respect their differences. What you intend as humor may, in fact, be cultural bias or harassment.
14. Personal phone use should be limited to non-student contact time. While you are talking on the phone many ears may be listening if students are present. The use of personal cell phones at school during student contact time is strongly discouraged. **Unless you are on emergency standby or some other special circumstances, leave cell phones turned off during class time.**
15. Students will often repeat what they hear or think they heard. Always be aware of your surroundings and who may overhear conversations.
16. Be careful about your choice of language. Slang, colloquialisms, or mild profanity is unprofessional and is to be avoided.
17. Avoid comments about colleagues even in a humorous manner. Students may take what you say out of context and make it sound derogatory or slanderous.
18. Remember to be professional in the clothing you wear. On specified casual days, be sure that what you wear is appropriate and fits as it should. Tight jeans and/or tops that are not permitted on students are definitely not for staff.

Family, Medical, and Service Member Leave

In compliance with the Family and Medical Leave Act of 1993, full-time school employees are entitled to take up to twelve (12) weeks unpaid leave a year for the following reasons:

- A. The birth of the employee's child;
 - B. The placement of a child with the employee for adoption or foster care;
 - C. To care for the employee's spouse, child or parent who has a serious health condition;
 - D. A serious health condition rendering the employee unable to perform his/her job; or
 - E. Any qualifying exigency that arises because the spouse, son, daughter or parent of an employee is a service member serving with the Armed Forces, a veteran of the Armed Forces, National Guard or Reserves; or on active duty or has been notified of an impending call or order to active duty as a member of the National Guard or Reserve or a retired member of the Regular Armed Forces or Reserve in support of a contingency operation.
- II. An eligible employee who is the spouse, son, daughter, parent or next of kin of a covered service member is entitled to a total of twenty-six (26) weeks of leave during a twelve (12) month period to care for the service member. This leave is available only during a single twelve (12) month period. Entitlement for military caregiver leave applies on a per covered service member per injury basis.
- III. During the single twelve (12) month period described in section II. an eligible employee is entitled to a combined total of twenty-six (26) of leave under the provisions of sections I. and II. This does not limit the availability of leave under section I during any other twelve (12) month period.
- IV. Employees are to provide at least 30 days notice, if possible, of their intention to take leave. Medical certification that the leave is needed is required for the employee's own serious health

condition or that of a family member. The School Board will continue the employee's health insurance under the same conditions as if the employee were working. Upon returning from leave, the employee will be restored to the same or equivalent position with equivalent pay, benefits, and other terms and conditions of employment.

This policy applies to any fraud, suspected or observed, involving District employees, outside support organizations, vendors, contractors, volunteers, outside agencies doing business with the School Board and any other persons or parties in a position to commit fraud on the School Board. Know your school procedures and district and state laws regarding collecting money, purchasing materials and equipment, and follow them. Work in pairs when collecting large sums of money.

Any perceived fraud that is detected or suspected by any staff member or other person shall be reported immediately to Human Resource Services for guidance as to whether pursuit of an investigation is warranted. The obligation to report fraud includes instances where an employee knew or should have known that an incident of fraud occurred. Any investigation required shall be conducted without regard to the suspected wrongdoer's length of service, position/title, or relationship. Investigations shall be conducted in a confidential manner.

Violation of this policy may result in disciplinary action, termination of employment, termination of contract or legal action.

**HOLMES DISTRICT SCHOOL BOARD
EMPLOYEE COMPUTER USE POLICY
(policy restricting personal use of employer's computer)**

**SECTION ONE.
PURPOSE**

- A. To remain competitive, better serve our students, and provide our employees with the best tools to do their jobs, Holmes District School Board makes available to our employees access to one or more forms of electronic media and services, including computers, email, telephones, web sites, voicemail, fax machines, external electronic bulletin boards, wire services, online services, intranet, and Internet.
- B. Holmes District School Board encourages the use of these media and associated services because they can make communication more efficient and effective, and because they are valuable sources of information about vendors, students, technology, and new products and services. However, all employees and everyone connected with the organization should remember that electronic media and services provided by the company are company property and their purpose is to facilitate and support company business. All computer users have the responsibility to use these resources in a professional, ethical, and lawful manner. All guidelines, policies, and procedures apply to any remote site usage of computer or telecommunication usage.
- C. To ensure that all employees are responsible, the following guidelines have been established for using email and the Internet. No policy can provide rules to cover every possible situation. Instead, it is designed to express Holmes District School Board philosophy and set forth general principles when using electronic media and services.

**SECTION TWO.
PROHIBITED COMMUNICATIONS**

Electronic media cannot be used for knowingly transmitting, retrieving, or storing any communication that is:

1. Discriminatory or harassing;
2. Derogatory to any individual or group;
3. Obscene, sexually explicit, or pornographic;
4. Defamatory or threatening;
5. In violation of any license governing the use of software; or
6. Engaged in for any purpose that is illegal or contrary to *Holmes District School Board* policy or educational interests.

**SECTION THREE.
PERSONAL USE**

The computers, electronic media, and services provided by Holmes District School Board are primarily for educational use to assist employees in the performance of their jobs. Limited, occasional, or incidental use of electronic media (sending or receiving) for personal, non-educational purposes is understandable and acceptable, and all such use should be done in a manner that does not negatively affect the systems' use for their educational purposes. However, employees are expected to demonstrate a sense of responsibility and not abuse this privilege.

SECTION FOUR. ACCESS TO EMPLOYEE COMMUNICATIONS

- A. Generally, electronic information created and/or communicated by an employee using email, word processing, utility programs, spreadsheets, voicemail, telephones, Internet, bulletin board system access, and similar electronic media is not reviewed by the company. However, the following conditions should be noted:
Holmes District School Board does routinely gather logs for most electronic activities or monitor employee communications directly, e.g., telephone numbers dialed, sites accessed, call lengths and times at which calls are made, for the following purposes:
1. Cost analysis
 2. Resource allocation
 3. Optimum technical management of information resources
 4. Detecting patterns of use that indicate employees are violating company policies or engaging in illegal activity
- B. Holmes District School Board reserves the right, at its discretion, to review any employee's electronic files and messages to the extent necessary to ensure electronic media and services are being used in compliance with the law, this policy, and other company policies.
- C. Employees should not assume electronic communications are completely private. Accordingly, if employees have sensitive information to transmit, they should use other means.

SECTION FIVE. SOFTWARE

To prevent computer viruses from being transmitted through the company's computer system, unauthorized downloading of any unauthorized software is strictly prohibited. Only software registered or approved through Holmes District School Board may be downloaded. Only approved storage devices may be used. Employees should contact their school technology specialist or a Holmes District technology staff member if they have any questions.

SECTION SIX. SECURITY/APPROPRIATE USE

- A. Employees must respect the confidentiality of other individuals' electronic communications. Except in cases in which explicit authorization has been granted by company management, employees are prohibited from engaging in, or attempting to engage in:
1. Monitoring or intercepting the files or electronic communications of other employees or third parties;
 2. Hacking or obtaining access to systems or accounts they are not authorized to use;
 3. Using other people's log-ins or passwords; and
 4. Breaching, testing, or monitoring computer or network security measures.
- B. Holmes District School Board provides teachers with the opportunity and space to create instructional web pages. Links to external **personal** pages from Holmes District web pages are prohibited. Only links to **educational** sites should be posted on District pages, and only approved sites may be linked to Holmes District web pages. Student work and/or pictures should only be placed on authorized Holmes District web pages. Only students' first names should be published, and copyright notices should appear on all web pages to eliminate the use of students' photos and/or work without express written permission from the parent(s). Publishing student media is not permitted if a *Student Media Exclusion Request* is on file at school.
- C. No email or other electronic communications may be sent that attempt to hide the identity of the sender or represent the sender as someone else. Email should be used in a responsible, legal, and ethical manner. Failure to do so may result in termination of email privileges, disciplinary action, or prosecution under federal or state law. The use of email must be in support of education and research and must be consistent with academic actions of the Holmes District School Board. Responsible and ethical use of the email system is required. Holmes District School Board reserves the right to access any email for business purpose and for inspection for disciplinary or legal actions. Your email may be accessed with or without your knowledge. All email is archived for regulatory compliance and potential

further review. Email is intended only for valid and legitimate communication related to Holmes District School Board and the educational process.

- D. Electronic media and services should not be used in a manner that is likely to cause network congestion or significantly hamper the ability of other people to access and use the system.
- E. Anyone obtaining electronic access to other companies', counties', or individuals' materials must respect all copyrights and cannot copy, retrieve, modify, or forward copyrighted materials except as permitted by the copyright owner. All employees must comply with all copyright laws in the use of all media and materials.
- F. Employees shall use caution and good judgment when using electronic communications and social networking sites. Any information relayed to students via electronic communications shall be professional in nature and related to a student's academic progress. Any information posted to or communicated through a social networking site or email shall not bring disfavor, embarrassment, or condemnation to the employee, student, or school district. Staff shall not use District time or technology for personal use of social media. Staff shall not engage in conduct that adversely affects their capacity to serve as a role model for students or their ability to work effectively with District staff, parents, and students.
- G. Schools must be given permission by the Superintendent to create official school sites on social media outlets (Facebook, Twitter, etc.). The District must have a record of the employees responsible for maintaining the site and must guarantee a safeguard is in place to prevent users from posting information without approval from said designated school employee(s).

SECTION SEVEN. ENCRYPTION

Employees can use encryption software supplied to them by district technology staff members for purposes of safeguarding sensitive or confidential business information. Employees who use encryption on files stored on a Holmes District computer must provide their supervisor with a sealed hard copy record (to be retained in a secure location) of all passwords and/or encryption keys necessary to access the file(s).

SECTION EIGHT. PARTICIPATION IN ONLINE FORUMS

- A. Employees should remember that any messages or information sent on district-provided facilities to one or more individuals via an electronic network (for example, Internet mailing lists, bulletin boards, and online services) are statements identifiable and attributable to Holmes District School Board.
- B. Holmes District School Board recognizes that participation in some forums might be important to the performance of any employee's job. For instance, an employee might find the answer to a technical problem by consulting members of a newsgroup devoted to the technical area.

SECTION NINE. PROCEDURE/VIOLATIONS

Any employee who suspects a threat to the Holmes District network should immediately contact their site administrator and/or district technology staff members. Any employee who abuses the privilege of their access to email and/or the Internet in violation of this policy will be subject to corrective action, including possible termination of employment, legal action, and criminal liability.
