INTRODUCTION

The Holmes County School Board recognizes fully the constitutional rights of students enrolled in its schools. The Board recognizes equally, however, its obligation to establish policy related to student behavior and discipline which assures that a proper atmosphere for learning will be maintained within every school serving Holmes County.

The Board believes that the kind of discipline preferable in a democratic society is that typified by self-discipline. It considers self-discipline as a learning process whereby the individual progressively learns to develop habits of self-control and recognizes his own responsibilities to society. Behavior and discipline policies shall, therefore, demonstrate recognition both of individual student constitutional rights and of the paramount need for maintaining a proper and safe atmosphere for learning within each school.

The use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful to students. Therefore, it is the intent of the Board that all schools and school activities shall be drug and alcohol free.

Information on drug and alcohol rehabilitation and re-entry programs is available in the guidance office in all schools. A student assistance program has been established in each school wherein counselors and teachers have received training in assisting students and in referring them for outside assistance for alcohol and drug related, as well as other problems. In addition, counseling services are available from school guidance counselors.

EQUAL EDUCATION OPPORTUNITY STATEMENT

Holmes District School Board does not discriminate on the basis of race, color, national origin, gender, age, disability, marital status or genetic information in its educational programs, services or activities, or in its hiring or employment practices. The district also provides equal access to its facilities to the Boy Scouts and other patriotic youth groups, as required by the Boy Scouts of America Equal Access Act. Questions, complaints, or requests for additional information regarding discrimination or harassment may be sent to: Carmen Bush, 701 E. Pennsylvania Ave., Bonifay, FL 32425, (850) 547-9341 x1253, carmen.bush@hdsb.org.

SENATE BILL 98 – STUDENT- LED INSPIRATIONAL MESSAGE

Students responsible for organizing the student-led portion of a student assembly shall have sole discretion in determining whether an inspirational message is to be delivered and choose the student volunteers who will deliver an inspirational message. The student volunteers shall be solely responsible for the preparation and content of the message.

School district personnel may not participate or influence the determination of whether an inspirational message is to be delivered or select the student volunteers who will deliver it. They may not monitor or review the content of a student volunteer's message.

PLEDGE OF ALLEGIANCE

The pledge of allegiance to the flag shall be recited at the beginning of each school day in elementary, middle, and secondary schools. (HDSB Policy 3.60). A student may be excused from reciting the pledge of allegiance when his/her parent(s), as defined by Florida Statutes, files a written request with the principal (F.S. 1003.44, effective July 1, 2016.)

JURISDICTION OF THE BOARD OF EDUCATION

Students enrolled in the Holmes County School System are subjected to the policies of the Holmes County School Board and to the rules and regulations of the schools. This authority applies to all school-sponsored activities including, but not necessarily limited to, the following:

- Transportation on school buses,
- Field trips,
- Club or organization meetings,
- School-sponsored social events, and
- School groups representing the school system in education events.

All school rules and regulations pertain to automobiles driven or parked on school property.

NOTICE TO STUDENTS: SEARCH OF LOCKERS, VEHICLE, ELECTRONIC DEVICES, OR PERSONAL PROPERTY

Students do have the right to bring approved personal property onto campus. Student lockers, personal property, and vehicles are subject to search by the principal/designee where reasonable suspicion is present to believe a prohibited or illegally possessed item is contained therein. Any vehicle while on the school campus or the grounds of a facility where a school sponsored function is being held or any vehicle used in connection with a school sponsored activity is subject to search by the principal/designee and/or the appropriate law enforcement agency when a reasonable suspicion exists that a prohibited or illegally possessed item is stored in the vehicle. The person in control of the vehicle will be present during the search. 1003.09, F.S.

A student's electronic device is subject to search. The principal/designee may confiscate a student's cell phone/electronic device and search its contents including, but not limited to, phone usage, texting, and images/videos when a reasonable suspicion exists that the student violated the District's Student Acceptable Use Guidelines for Technology. Such search is not subject to prior parent/guardian notification.

The search of a student may be conducted when reasonable suspicion exists that the student possesses a prohibited or illegally possessed item. The search must be conducted (with an adult witness present) in a discreet manner out of view of other students.

GRIEVANCE PROCEDURES FOR STUDENTS

When a student feels that his/her rights have been violated by any school personnel or by another student and the matter is not satisfactorily resolved, a grievance may be initiated as follows:

- A. Any student grievance shall be settled at the lowest possible level. The following procedure shall be observed whenever a student feels he/she has reason to file a grievance.
- B. A student who questions a decision of a teacher or administrator, other than the principal, shall talk courteously to the teacher or administrator concerned at a time other than regular class time.
- C. If the student is not satisfied after talking with the teacher or administrator concerned,

the student may submit an appeal, in writing, to the principal to review the matter. Such an appeal shall be submitted within three (3) days of the incident.

- D. The principal shall investigate the problem and shall render a decision on whether to sustain or overrule the decision of the teacher or administrator. The decision shall be given to the student, in writing, within five (5) days of the written notice of appeal.
- E. Any appeal beyond the Principal shall be made first to the Superintendent and then in writing to the School Board in accordance with the following procedures. If the grievance concerns a decision of the Principal, appeal may be made by the student, in writing, directly to the Superintendent. Such an appeal shall be submitted within three (3) days of the incident. When an appeal is made to the Superintendent, the Superintendent, or his/her designee, shall investigate and shall render a decision on whether to sustain, overrule, or modify the decision of the teacher, administrator or principal. The decision shall be given to the student in writing, within ten (10) days of the written notice of appeal.
- F. If the student is dissatisfied with the decision of the Superintendent, the student may, within five (5) days of the Superintendent's written decision, make a written request to be placed on the agenda of the next regularly scheduled meeting of the School Board.

ANNUAL NOTIFICATION OF RIGHTS UNDER FERPA FOR ELEMENTARY AND SECONDARY SCHOOLS

The Family Educational Rights and Privacy Act (FERPA) and Florida law afford parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 30 days after the day the School receives a request for access. Parents or eligible students should submit to the School principal a written request that identifies the records they wish to inspect. The School principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
Parents or eligible students who wish to ask the School to amend a record should write the School principal, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an

institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in §99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(2) are met. (§99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of §99.34. (§99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency in the parent or eligible student's State (SEA). Disclosures under this provision may be made, subject to the requirements of §99.35, in connection with an audit or evaluation of Federal- or State-supported education

programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf. (§99.31(a)(3) and §99.35)

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to §99.38. (§99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction. (§99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§99.31(a)(8))
- To comply with a judicial order or lawfully issued subpoena. (§99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to §99.36. (§99.31(a)(10))
- Information the school has designated as "directory information" under §99.37. (§99.31(a)(11))

NOTICE FOR DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Holmes District School System, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, the School District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;

Directory information, which is information that is generally not considered harmful or an

invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

If you do not want Holmes District School Board to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing. Holmes District School Board has designated the following information as directory information:

Full rights apply to either parent unless a court order specifically revokes these rights. SCHOOL BUS SAFETY

TIPS FOR SCHOOL BUS RIDERS

Students who are 2nd grade or younger will not be allowed to get off the bus in the afternoons unless there are adults or older siblings (3rd grade or older) present.

School officials, bus operators, parents, and students themselves are all responsible for ensuring that school bus riders follow these safety tips:

At the bus stop:

- Students and parents are responsible for safety and proper student behavior going to and from the stop and while waiting for the bus.
- Students must stand off the roadway while waiting.
- Students must respect other people's property.
- Students must not push, shove, or engage in horseplay.
- Parents should supervise children at the stop if possible.
- Students must arrive at the bus stop at least five minutes prior to the schedule pickup time.
- Students must wait for and get off the bus only at approved stop locations.

During loading and unloading:

- Always stay away from the 12 foot "danger zone" around the bus, except when you are directed by the driver to get on or off the bus.
- NEVER pick up an object that you drop under or near the bus. Ask the driver for help.
- Always be sure the driver can see you.
- Make sure clothing and backpacks have no loose drawstrings or long straps that could catch in the handrail or bus door.
- When you see the bus coming, stand at the stop and wait for the bus to come to a complete stop.
- Always wait for the driver to signal that it is safe to cross the road and/or load into the bus.
- When crossing a traffic lane, always look left, right, then left again; cross only if approaching traffic has stopped.
- Never walk behind the bus.
- Only board your assigned bus, unless other arrangements are approved by your school.

During the bus ride:

- Always follow the driver's directions.
- Never distract the driver from driving unless there is immediate danger to you or others.
- Remain seated and keep the aisles clear.
- Eating, drinking, and chewing gum are prohibited.
- Any food or drinks that are brought to school on the bus must be placed in a bag or purse.
- Never bring unsafe or unauthorized items into the bus.
- Always wear your seat belt when one is available.
- Always keep your arms, legs, and head inside the bus.
- Always show respect for your fellow students.
- Keep conversation at a reasonable level and remain quiet at railroad crossings. The *Code of Student Conduct* applies in the bus as well as in the classroom.

TIPS FOR RIDERS IN CARS, SUVs, AND TRUCKS

- Drivers and passengers in cars, SUVs, and trucks must always use appropriate safety restraints.
- Anyone transporting children needs a child safety seat, booster seat, or safety belt, depending on children's sizes and ages.
- Preschool age children should always be restrained properly in a secured child safety restraint system, such as a rear-facing infant seat, rear-facing convertible seat, forward-facing convertible seat, or forward-facing-only seat appropriate to their age and weight

range.

- All children who have outgrown child safety seats should be properly restrained in a booster seat until they are least 8 years old, unless they are at least 4'9" tall.
- The backseat is the safest place in a crash. Children age 12 and under should ride properly restrained in back. Infants riding in rear-facing seats must NEVER be placed in front of an air bag.

TIPS FOR PARENT DRIVERS AND TEEN DRIVERS

- When picking up children in the afternoon don't arrive too early and hinder the movement of traffic in the neighborhood around the school.
- Wait in a single line and leave enough room so an emergency response vehicle would be able to get through.
- Don't block driveways, mailboxes, disabled parking spaces, or fire hydrants, and don't park on lawns.
- Don't block access to or the view from side streets.
- Don't back out onto any street from the school parking lot or from a side street.
- Try to arrange your drop off/pickup time after the peak rush hour and use designated loading and unloading areas.
- Always heed signs and the directions of school and law enforcement officials.
- Always obey posted speed limits and other traffic laws.
- Act as you would want people to act if it were your neighborhood.
- Be patient and understand that walkers, bicyclists, and school buses are trying to exit the school, too.
- Always ensure that you and your passengers buckle up.
- Never talk on a cell phone or engage in other distractions while driving.

TIPS FOR WALKING AND BIKING SAFETY

Walking - Teach, practice, and remind children to:

- Walk with an adult or responsible older child at all times.
- Children under 10 years old should cross the street only with an adult.
- Walk on the sidewalk if there is one.
- Walk facing the traffic, as far from the road/traffic as possible, if no sidewalk is available.
- Use traffic signals and marked crosswalks if available.
- Stop at the curb or edge of the road and look left, right and left for traffic before crossing the street.
- Walk; don't run.

- Always wear a helmet that is properly fitted.

- Always obey all traffic signs and signals.
- Ride on the right side of the road or trail in a single file (one bicycle behind another).
- Ride in the same direction as other vehicles.

BULLYING ON THE BUS

Bullying is defined as unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture by an adult or student that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment, cause discomfort or humiliation, or unreasonably interfere with the individual's school performance or participation. As with most harmful behavior among children, in general bullying occurs wherever there is the least structure and adult supervision. Most incidents tend to occur on the playground, in bathrooms, in locker rooms, in cafeterias, in cyberspace, at bus stops, and in the school bus.

Parents, encourage your child to talk to you. Praise your child for positive communication and behavior. Provide/ensure adequate supervision. Teach your child to be assertive rather than aggressive or violent when confronted by a bully. Verify that consistent messages about rules and safety are practiced in your child's school and staff is trained in bullying prevention.

Students, stay away from bullies. Tell an adult. Avoid bad situations. Make friends. If bullied, tell the bully to stop; then walk away.

PROTECTING CHILDREN FROM SEXUAL OFFENDERS AND PREDATORS

Florida has the strongest laws in the country to protect its youthful citizens from being abducted. However, parents and children themselves are the first line of defense. Talk to your children about following these rules:

- Stay away from any unfamiliar person who is trying to trick you or force you to go with him or her.
- Let your parents and other trusted adults know about any suspicious persons or situations.
- Know where to run and how to forcibly resist capture.
- Learn to describe people and vehicles.
- Scream to be seen and to scare a stranger away.
- Stay with a buddy, a group, or parents at the bus stop.
- Report anyone hanging around or passing by regularly.
- Accept a ride only from someone approved by the school.
- Walk or bike only along a route that your parents or the school has determined is safe.
- Lock the door and never tell callers you are home alone.

The preceding bus safety information is presented to comply with requirements to provide safety information to parents, guardians, and students (Rule 6A-3.0121, Florida Administrative Code).

BULLYING AND HARASSMENT

It is the policy of the Holmes County School District that all of its students and school employees have an educational setting that is safe, secure and free from harassment and bullying of any kind. Conduct that constitutes bullying and harassment of any student or school employee is prohibited during any education program or activity, any school-related or school-sponsored program or activity, on a school bus, through the use of data or computer software that is

accessed through a computer, computer system, or computer network of the Holmes District Schools, or through the use of data or computer software that is accessed off-campus and non-HDSB owned if the bullying substantially interferes with or limits the victim's ability to participate in or benefit from school provided services or disrupts the education process or orderly operation of a school.

Bullying includes cyberbullying and means systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. It is further defined as unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture, by a student or adult, that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment, cause discomfort or humiliation, or unreasonably interfere with the individual's school performance or participation, and may involve but is not limited to *teasing; social exclusion; threat; intimidation; stalking; physical violence; theft; sexual (including sexting), religious, or racial harassment; public humiliation or destruction of property*. The term *bullying* shall include cyberbullying whether or not specifically stated.

If you are the victim of bullying or cyberbullying, clearly tell the "bully" to stop. Immediately report the incident to a teacher, guidance counselor or administrator at the school. Tell your parent/guardian. If the bullying continues after you have told the bully to stop, keep a written record of the incident including date, time, witnesses and individuals involved in the incident. Avoid being alone with the person who has attempted to bully you in the past.

To minimize the risk of being accused of bullying keep your hands to yourself and never cause physical harm to another person. Think before you speak. Don't make remarks that may make another person feel scared, intimidated, uncomfortable or fearful. Immediately apologize if you accidentally say or do something that has made another person feel oppressed or uncomfortable. Report all incidents of bullying you have witnessed to appropriate school personnel. Don't keep interacting with a person after he/she has perceived your behavior toward him/her as being inappropriate and has clearly told you to stop.

Conduct that constitutes bullying and harassment, is defined in Holmes County School Board Policy 5.321, found in its entirety, at www.hdsb.org under School Board, School Board Policies. Consequences for investigated and confirmed incidents of bullying and/or harassment may range from positive behavior interventions up to and including, but not limited to suspension, expulsion, or criminal charges, if warranted.

The school district will fight bullying and cyberbullying by promoting anti-bullying at our schools! Speak to your guidance counselor, teachers, or administration to report bullying. You may also pick up a form at your school's front office, or go to www.hdsb.org to anonymously report bullying online.

FORMAL DISCIPLINARY ACTIONS AND PROCEDURES

After-School Detention

The principal or his/her designee has the authority to assign students to a designated area at the end of the regular school day for a reasonable and specified period of time. The parent is responsible for providing transportation in these cases. A reasonable attempt will be made to notify elementary and middle school parent(s) prior to the assignment of a student to detention. If the parent is notified on the day of the misbehavior, the student will be assigned on that day; if not, the student will be assigned following notification of parent(s). High school students will be notified the day prior to detention and will be responsible for parental notification.

In-School Suspension Program

In-school suspension is a structured disciplinary action in which a student is removed from regular classroom activities. The principal has the authority to assign students to the In-School Suspension Program for a reasonable and specified period of time in compliance with the Code of Student Conduct.

Students sent to the In-School Suspension Program are responsible for bringing their assignments, books, and other materials needed. Work assigned by the principal or teacher must be completed before the student is dismissed. It is the student's responsibility to return assigned work to his regular teacher. If the work is not completed to the assigning teacher's satisfaction, the student may be sent back to In-School Suspension by the principal until the work is finished. The student will receive credit for work completed during in-school suspension.

A student sent to the In-School Suspension Program is not allowed to participate in or practice for any extracurricular activities on any day that he/she is in the program.

School Bus Suspension

The principal has the authority to deny a student the privilege of riding a school bus. This denial, based on the misconduct of the student, will be for a reasonable and specified period of time. The parent(s) will be notified prior to the suspension from the bus.

Corporal Punishment

The Holmes County Board of Education has no rule against reasonable and proper paddling of students for disciplinary reasons. Before corporal punishment is administered as a disciplinary method, the student will be given the reason for the punishment and an opportunity to explain his/her actions. Corporal punishment may be administered by the principal or designated person(s) in the presence of a School Board employee. A written report will be prepared for each incident. No more than three (3) strokes with a paddle may be administered for any given infraction.

Suspension

Suspension is defined as the temporary removal of a student from a school for violation of school rules or regulations. The authority to suspend a student from school rests entirely with the principal of each school. All suspensions should be for a specified number of days, not to exceed ten (10) days. Any deviation from said pattern shall require authorization from the Superintendent of Schools or his designee.

Absences due to suspension will be treated as unexcused and work cannot be made up except the nine weeks test and semester tests, these may be made up at the discretion of the principal. A student who is suspended from school is not allowed to participate in or practice for any extra-curricular activities on any day that he/she is suspended. Neither is a **person who is suspended** allowed to attend any extra-curricular activity.

Expulsion or Dismissal

Expulsion is defined as the removal of a student from a school for violation of school rules or regulations. The authority to permanently expel a student is retained by the Board of Education, who alone can approve such an action.

The local school principal considering expulsion may suspend the student for ten (10) days pending a hearing by the School Board. The Superintendent or his designee may extend an

existing school suspension then in effect, pending the results of the investigation, if he has reason to believe that a return to school would be detrimental to the student, the school staff, other students, or would tend to disrupt the orderly conduct of the educational process.

TOBACCO FREE SCHOOL COMPLIANCE

One of the Holmes County School Board's responsibilities is to provide a safe and healthy learning environment free from exposure to known carcinogens. Tobacco is known to be a carcinogen and is defined as any lighted or unlighted cigarette, cigar, pipe, etc., and any other smoking product, smokeless product or spit less tobacco and/or electronic cigarettes. No student is permitted to possess any tobacco product, paper used to roll cigarettes, lighters or other paraphernalia at any time. This policy is effective 24 hours, 365 days per year.

Possession of tobacco of any kind (as described above) or that may be developed containing nicotine or tobacco or a combination of the two are prohibited in all schools, district offices, practice fields, playgrounds, football fields, baseball fields, softball fields, pool areas, soccer fields, tennis courts and all open areas at any time.

GUN FREE SCHOOL COMPLIANCE

The Holmes County School System will implement all policies consistent with the Gun-Free Schools Act of 1994.

"Notice that any student who is determined to have brought a firearm, as described in 18 U.S.C. s. 921, to school, any school function, or on any school sponsored transportation will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than one full year and referred for criminal prosecution."

The act requires the expulsion for a period of not less than one year of a student who is determined to have brought a weapon to school. "Weapon" or "Firearm" is defined by section 921 of Title 18 United States Code. The act further requires such student to be referred to criminal or juvenile delinquency system.

Expulsions will be addressed on a case-by-case basis based upon applicable school board policies.

DISCIPLINE OF STUDENTS WITH DISABILITIES

Discipline of students with disabilities is carried out in accordance with separate School Board policies and Holmes County Special Programs and Procedures and Admissions and Placement Manual. These policies and procedures are in compliance with the 2004 IDEA Reauthorization implementing regulations under 34CFR, Part 300, case law, and State Board of Education Rules. In addition, the policies and procedures are in compliance with Office of Civil Rights requirements and the Gun Free Schools Act. A copy of the policy may be obtained from the Office of the School Superintendent or Exceptional Student Education Administrator.

DISCIPLINE OF ENGLISH LANGUAGE LEARNERS (ELL) STUDENTS

No national origin, minority or ELL student shall be subjected to disciplinary action because of his or her use of language other than English.

TECHNOLOGY ACCEPTABLE USAGE

Holmes District Schools provides all students access to technology, the district computer network and the Internet for instructional purposes. Access to school and district software, shared files, the Internet, and other electronic networks will enable students to explore thousands of libraries, databases, and bulletin boards while communicating with others throughout the world. The district, in accordance with its policies and procedures, will take reasonable precautions to ensure the appropriate use of its network by staff, students, and visitors to the district. However, it is not technically possible to control all materials and users may encounter inappropriate information either by accident or through intentional misuse of the system. The district supports resources that will enhance the learning environment with directed guidance from faculty and staff. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources.

General school rules for behavior and communications apply. Access is a privilege that entails responsibility and will be provided to all students unless a signed ***Internet Use Exclusion Request*** (page 48) is on file at the school. Please be advised that the exclusion request will restrict student use of district Internet access for research and exploration, but the student will still be instructed through the use of Internet-based educational software deemed vital to your child's educational success. Users will comply with district standards and will honor the Acceptable Use Policy and Guidelines. At any time an administrator or representative may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Students should have no expectation of privacy in any communication sent by e-mail or in regard to Internet or network access.

HDSB is committed to moving students and staff forward in a 21st century learning environment. HDSB recognizes that it does not have the financial resources to provide new technologies to every student. In an effort to bring more technology tools into our classrooms and to leverage student-owned technology, HDSB will allow personal technology devices to be brought on campuses and onto our network. Students bringing such personal devices to school must follow all Florida law, HDSB policies, the *Technology Acceptable Usage* policy, and the guidelines set forth in this document. In addition to the rules outlined in these guidelines, students will be expected to comply with all class and school rules while using personal devices.

As part of this plan, HDSB has implemented a Bring Your Own Device (BYOD) program, which will allow students and staff to access the wireless network using their own technology devices (laptops, smart phones, iPads, eReaders, tablets, etc.) during the learning day. With administrator and classroom teacher approval, students may use their own devices in the classroom to access **educational resources**. HDSB is providing wireless connectivity as a service and offers no guarantees that any use of the wireless connection is in any way secure, or that any privacy can be protected when using this wireless connection. Use of the HDSB wireless network is entirely at the risk of the user, and HDSB is not responsible for any loss of information that may arise from the use of the wireless connection, or for any loss, injury, or damages resulting from the use of the wireless connection. Students that submit an ***Internet Exclusion Request*** form will NOT be allowed to access the district's network on district- or student-owned equipment.

It is one of the technology goals of the district to ensure that each user's interactions with technology contribute positively to the learning environment both at school and in the community. Negative use of technology, including bullying or sexting, through HDSB- or personally-owned devices inside or outside of our schools that degrades or defames other

users, or members of our community is unacceptable. HDSB also recognizes that users have widespread access to both technology and the Internet; therefore, use of personal devices and connectivity are considered to be included in this *Technology Acceptable Usage* policy.

Guidelines

- HDSB is not liable for the theft, loss, or damage of students' personally-owned devices. The student is fully responsible, at all times, for personally-owned devices brought to school. Students are responsible for personal devices at school functions and on the school bus, as well. Any time a theft or damage occurs, the principal or assistant principal should be contacted immediately to make him/her aware of the offense. Bringing your own technology device to school can be useful; however, some risks are involved. It is always a good idea to record the device's serial number in case of theft or loss. It is recommended that decals or other custom identification be used to identify your device from others. Additionally, protective cases are encouraged.
- HDSB will not be responsible for any device charges that may be incurred by using the personal device.
- Approved devices must be in silent mode while on school campuses, unless otherwise allowed by a teacher or administrator. Devices must be in silent mode/off for the duration of any bus transportation.
- Students may not use devices to cheat on assignments or tests or for non-instructional purposes (such as making personal phone calls and personal text/instant messaging).
- Personal devices should be charged and recharged outside of school, unless specific permission is granted. Personal devices should be capable of lasting a full day without recharging.
- Printing from personal devices will not be possible.
- Gaming devices are NOT allowed. Acceptable devices include (but are not limited to) laptops; netbooks; notebooks; iPads; eReaders; tablets; iPod Touch; and smart phones.
- HDSB will not provide repair or software installation services to any personal device.
- Device use is limited exclusively to classrooms participating in the BYOD program. Outside these classrooms, all electronic devices should be turned off and should not be visible. Teachers have the final say on procedures in the classroom. Students may use technology at the discretion of the teachers as the lesson warrants the use. Teachers make the final decision for any tools used in the classroom; student-owned equipment will be treated no differently. Students must comply with all teacher requests regarding technology (such as shutting down, closing the screen, etc.) It will be up to the individual teachers to communicate their expectations to parents and students.
- Wireless Internet access is available - not guaranteed - for each classroom situation.
- No device, personal or otherwise, may be used to record, store, transmit, or post any type of image, sound, or video of a person or persons on campus during school activities and/or hours, unless directed or approved by a teacher or administrator for specific educational purposes
- Only the Internet gateway provided by the school may be accessed while on campus. Personal Internet connective devices, such as but not limited to cell phones / cell network adapters, are not permitted to be used to access outside Internet sources at any time.
- If reasonable belief exists that a student has violated the terms of this agreement or other school policy, the student's device may be inspected and/or confiscated. Subsequent or additional disciplinary action involving misuse of technology may extend to loss of technology privileges or further action as determined by HDSB administrators.

- Personal devices are not required for any class; therefore a grade cannot be taken. Students will face no penalty if they don't bring their own device to school, and alternative modes of participation will be available.
- Parents/guardians who sign the Internet exclusion form located on page 48 are restricting their child's/children's use of all online resources (accessed both on district- and personally-owned devices). The rules outlined in the *Technology Acceptable Usage* policy apply for Internet use of any kind. Furthermore, it is not the responsibility of HDSB staff to ensure students have not accessed the Web on their personal technology devices.
- The use of personal devices on the HDSB network is permitted only on specially-designated networks. When a student, parent/guardian, or employee connects a personal computing device (including, but not limited to, laptops, flash drives, and cell phones) to an HDSB-operated network they are subject to the same levels of monitoring and access as any HDSB technology device. Any and all access through the wireless network may be monitored and/or recorded for the purposes of network security and student safety. Students should have no expectation of privacy in any communication sent by e-mail or in regard to Internet or network access. All content stored on personal devices is subject to public records law.
- Access to the network may be blocked, suspended, monitored, or terminated at any time for any reason. The network access is provided "as is" without warranties of any kind, either expressed or implied.
- Students will not attempt to bypass the network filter. Student filtering is required by federal law of all public schools. The Children's Internet Protection Act (CIPA) requires all network access to be filtered, regardless of the tool you use to access it while in a public school. Personally-owned laptops, phones, tablets, etc., may be used to access the HDSB network. The network belongs to HDSB and will be filtered. In addition to content filtering controls, adult supervision is present; however, inappropriate, objectionable, and/or offensive material may circumvent the filter as well as the supervision and be viewed by students. Students are to report the occurrence to their teacher or the nearest administrator. Students will be held accountable for any deliberate attempt to circumvent HDSB technology security and supervision. Students using devices while at school are subject to the terms and conditions outlined in this document and are accountable for their use.
- Students that bring personal devices on school premises and attempt to infect the network with a virus or program designed to damage, alter, destroy, or provide access to unauthorized data or information is in violation of HDSB policy and may result in disciplinary actions.
- Violating the terms of the *Technology Acceptable Usage* policy will be considered a student code of conduct violation and will be dealt with by the school and/or district administrator(s). It is a privilege rather than a right for students to bring personal devices to school. When the policies are followed, the learning environment will be enhanced. However, when policies are abused, the privileges may be taken away and confiscation and/or disciplinary action may occur.

HDSB will utilize filtering software or other technologies to prevent users from accessing visual depictions that are (1) obscene, (2) pornographic, or (3) harmful to minors. Attempts to circumvent or 'get around' the content filter are strictly prohibited, and will be considered a violation of this policy. HDSB will also monitor the online activities of users through direct observation and/or other technological means. HDSB reserves the right to take immediate action regarding activities 1) that create security and/or safety issues for the HDSB network, users, schools, network, or computer resources; 2) that expend HDSB resources on content it

determines lacks legitimate educational content/purpose; or 3) other activities as determined by HDSB as inappropriate.

Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian. Users should never give out private or confidential information about themselves or others on the Internet.

Class III offenses related to drugs may result in an automatic transfer to the Graduation Assistance Program (GAP). A Class III offense committed on a senior trip will result in the student not being allowed to participate in graduation ceremonies. Sexual harassment involving physical contact will result in expulsion as per school board procedures. A recommendation of a mental health evaluation may also be made.

ATTENDANCE

“The Legislature finds that early intervention in school attendance habits will lead to improved student learning and achievement.” Florida Statute 1003.21 and Holmes District School Board Policy 5.40 requires students ages 6 up to 18 to be in regular attendance at school. All students are expected to attend all classes each day that school is in session. Unexcused absences may negatively affect a student's grade. Determination of whether an absence is excused or unexcused is the responsibility of the site principal or designee. Any time that a student is absent from school during school hours, a written, dated statement explaining the absence should be signed by the parent or guardian and filed at the school. Student absences must be tracked on a daily basis and parents contacted as required by law.

Tardy is defined as not being present when the tardy bell rings. Tardies in excess of 3 per class period in a nine weeks will be subject to a discipline referral.

The following absences may be excused with the proper documentation:

- Illness or medical care;
- Death in the family;
- Legal requirements;
- Religious holidays;
- Educational absences approved ahead of time by the principal or designee; and
- Financial or other insurmountable conditions.
- Other absences pre-approved by the principal or designee

Any absence not meeting the above criteria will be considered unexcused. If a student has had at least 5 unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student's primary teacher shall report to the school principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance, refer the case to the school's child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the district school superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.

If an initial meeting does not resolve the problem, the child study team shall implement the following:

1. Frequent attempts at communication between the teacher and the family.
2. Evaluation for alternative education programs.
3. Attendance contracts.

Students aged six (6) to eighteen (18) are subject to mandatory school attendance unless those students aged sixteen (16) to eighteen (18) have filed with the district a formal statement of intent to withdraw from school which includes acknowledgements that terminating school enrollment is likely to reduce a student's earning potential and that driving privileges may be withheld or terminated. This statement must be signed by the student, parent or guardian and school representative.

After the fifteenth (15th) unexcused absence from school during school hours within ninety (90) calendar days, a student subject to compulsory school attendance will be classified as a habitual truant and will be reported to the School Board or its designee. The Superintendent or designee may file a truancy petition in circuit court and will notify the Department of Highway Safety and Motor Vehicles to withhold or suspend driving privileges and/or license.

Elementary school students who have absences (excused or unexcused) of twelve (12) classes or days in one school year are subject to retention in current grade contingent on recommendation from the child study team. Principals will have the discretion in documented major medical incidents such as extended hospital stays.

Florida State School Attendance Statutes supporting Holmes District School Board's attendance policy:

1003.21 School Attendance

1003.23 Attendance Records and Reports

1003.24 Parents Responsible for Attendance of Children; Attendance Policy

1003.26 Enforcement of School Attendance

S. 1003.21 School Attendance

(1)(a)1. All children who have attained the age of 6 years or who will have attained the age of 6 years by February 1 of any school year or who are older than 6 years of age but who have not attained the age of 16 years, except as otherwise provided, are required to attend school regularly during the entire school term.

2. Children who will have attained the age of 5 years on or before September 1 of the school year are eligible for admission to public kindergartens during that school year under rules adopted by the district school board.

(b) Any child who has attained the age of 6 years on or before September 1 of the school year and who has been enrolled in a public school or who has attained the age of 6 years on or before September 1 and has satisfactorily completed the requirements for kindergarten in a private school from which the district school board accepts transfer of academic credit, or who otherwise meets the criteria for admission or transfer in a manner similar to that applicable to other grades, shall progress according to the district's student progression plan. However, nothing in this section shall authorize the state or any school district to oversee or exercise control over the curricula or academic programs of private schools or home education programs.

(c) A student who attains the age of 16 years during the school year is not subject to compulsory school attendance beyond the date upon which he or she attains that age if the student files a formal declaration of intent to terminate school enrollment with the district school board. Public school students who have attained the age of 16 years and who have not graduated are subject to compulsory school attendance until the formal declaration of intent is filed with the district school board. The declaration must acknowledge that terminating school

enrollment is likely to reduce the student's earning potential and must be signed by the student and the student's parent. The school district must notify the student's parent of receipt of the student's declaration of intent to terminate school enrollment.

The student's guidance counselor or other school personnel must conduct an exit interview with the student to determine the reasons for the student's decision to terminate school enrollment and actions that could be taken to keep the student in school. The student must be informed of opportunities to continue his or her education in a different environment, including, but not limited to, adult education and GED test preparation. Additionally, the student must complete a survey in a format prescribed by the Department of Education to provide data on student reasons for terminating enrollment and actions taken by schools to keep students enrolled.

(d) Students who become or have become married and students who are pregnant shall not be prohibited from attending school. These students and students who are parents shall receive the same educational instruction or its equivalent as other students, but may voluntarily be assigned to a class or program suited to their special needs. Consistent with s. 1003.54, pregnant or parenting teens may participate in a teenage parent program. Pregnant students may attend alternative education programs or adult education programs, provided that the curriculum allows the student to continue to work toward a high school diploma.

(e) Consistent with rules adopted by the State Board of Education, children with disabilities who have attained the age of 3 years shall be eligible for admission to public special education programs and for related services under rules adopted by the district school board. Exceptional children who are deaf or hard of hearing, visually impaired, dual sensory impaired, severely physically handicapped, trainable mentally handicapped, or profoundly handicapped, or who have established conditions, or exhibit developmental delays, below age 3 may be eligible for special programs; or, if enrolled in other school readiness programs, they may be eligible for supplemental instruction. Rules for the identification of established conditions for children birth through 2 years of age and developmental delays for children birth through 5 years of age must be adopted by the State Board of Education.

(f) Homeless children, as defined in s. 1003.01, must have access to a free public education and must be admitted to school in the school district in which they or their families live. School districts shall assist homeless children to meet the requirements of subsection (4) and s. 1003.22, as well as local requirements for documentation.

(2) (a) The State Board of Education may adopt rules under which students not meeting the entrance age may be transferred from another state if their parents have been legal residents of that state.

(b) Each district school board, in accordance with rules of the State Board of Education, shall adopt a policy that authorizes a parent to request and be granted permission for absence of a student from school for religious instruction or religious holidays.

(3) The district school superintendent may authorize certificates of exemptions from school attendance requirements in certain situations. Students within the compulsory attendance age limits who hold valid certificates of exemption that have been issued by the superintendent shall be exempt from attending school. A certificate of exemption shall cease to be valid at the end of the school year in which it is issued.

S. 1003.23 Attendance Records and Reports

(1) The attendance of all public K–12 school students shall be checked each school day in the manner prescribed by rules of the State Board of Education and recorded in the teacher's register or by some approved system of recording attendance. Students may be counted in attendance only if they are actually present at school or are away from school on a school day and are engaged in an educational activity that constitutes a part of the school-approved instructional program for the student.

S. 1003.24 Parents Responsible for Attendance of Children; Attendance Policy.

Each parent of a child within the compulsory attendance age is responsible for the child's school attendance as required by law. The absence of a student from school is prima facie evidence of a violation of this section; however, criminal prosecution under this chapter may not be brought against a parent until the provisions of s. 1003.26 have been complied with. A parent of a student is not responsible for the student's nonattendance at school under any of the following conditions:

- (1) WITH PERMISSION.—The absence was with permission of the head of the school;
- (2) WITHOUT KNOWLEDGE.—The absence was without the parent's knowledge, consent, or connivance, in which case the student shall be dealt with as a dependent child;
- (3) FINANCIAL INABILITY.—The parent was unable financially to provide necessary clothes for the student, which inability was reported in writing to the superintendent prior to the opening of school or immediately after the beginning of such inability, provided that the validity of any claim for exemption under this subsection shall be determined by the district school superintendent subject to appeal to the district school board; or
- (4) SICKNESS, INJURY, OR OTHER INSURMOUNTABLE CONDITION.—Attendance was impracticable or inadvisable on account of sickness or injury, attested to by a written statement of a licensed practicing physician, or was impracticable because of some other stated insurmountable condition as defined by rules of the State Board of Education. If a student is continually sick and repeatedly absent from school, he or she must be under the supervision of a physician in order to receive an excuse from attendance. Such excuse provides that a student's condition justifies absence for more than the number of days permitted by the district school board.

Each district school board shall establish an attendance policy that includes, but is not limited to, the required number of days each school year that a student must be in attendance and the number of absences and tardies after which a statement explaining such absences and tardies must be on file at the school. Each school in the district must determine if an absence or tardies is excused or unexcused according to criteria established by the district school board.

1003.26 Enforcement of School Attendance

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student's parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time.

(b) If a student has had at least five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student's primary teacher shall report to the school principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance, refer the case to the school's child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the district school superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

1. Frequent attempts at communication between the teacher and the family.
2. Evaluation for alternative education programs.
3. Attendance contracts.

The child study team may, but is not required to, implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition pursuant to s. 984.151.

(d) The child study team shall be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted.

(e) If the parent refuses to participate in the remedial strategies because he or she believes that those strategies are unnecessary or inappropriate, the parent may appeal to the district school board. The district school board may provide a hearing officer, and the hearing officer shall make a recommendation for final action to the district school board. If the district school board's final determination is that the strategies of the child study team are appropriate, and the parent still refuses to participate or cooperate, the district school superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.

(f) 1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in

criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

(g) If a student subject to compulsory school attendance will not comply with attempts to enforce school attendance, the parent or the district school superintendent or his or her designee shall refer the case to the case staffing committee pursuant to s. 984.12, and the district school superintendent or his or her designee may file a truancy petition pursuant to the procedures in s. 984.151.

(2) GIVE WRITTEN NOTICE.—

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, and may refer the case to the case staffing committee, established pursuant to s. 984.12. The district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

(3) RETURN STUDENT TO PARENT.—A designated school representative may visit the home or place of residence of a student and any other place in which he or she is likely to find any student who is required to attend school when the student is not enrolled or is absent from school during school hours without an excuse, and, when the student is found, shall return the student to his or her parent or to the principal or teacher in charge of the school, or to the private tutor from whom absent, or to the juvenile assessment center or other location established by the district school board to receive students who are absent from school. Upon receipt of the student, the parent shall be immediately notified.

(4) REPORT TO APPROPRIATE AUTHORITY.—A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

(5) RIGHT TO INSPECT.—A designated school representative shall have the right of access to, and inspection of, establishments where minors may be employed or detained only for the purpose of ascertaining whether students of compulsory school age are actually employed there and are actually working there regularly. The designated school representative shall, if he or she finds unsatisfactory working conditions or violations of the Child Labor Law, report his or her findings to the appropriate authority.

MAKE-UP ASSIGNMENTS

All make-up assignments missed due to absences are the sole responsibility of the student.

1. It is the student's responsibility to arrange with the teacher to make up work missed during an absence. Arrangements to do so must be made immediately upon returning to that class. Assignments due on the day of the absence will be due on the day the student returns to that class.
2. Work missed during out of school suspension cannot be made-up for credit. Students will receive zeros (0) for the assignments/tests. **At the discretion of the principal, exceptions may be made for major assignments, end of grading period cumulative exams, and semester tests.**
3. Work completed during an in-school suspension will be accepted and proper credit given.

4. Make-up work: Students are given the **number of days absent from school plus one (1)** in a normal situation to complete make-up work for a class. However, if an assignment date has already been given to the class or an assignment is due on the day of the student's return, the teacher may request the completed assignment at that time.
5. ***Students participating in school sponsored athletic/academic/field trips are responsible for getting pre-approved absence form signed by the principal and obtaining from teachers assignments due prior to leaving for trip. All work is due the day students return to school.***

Student Sign-Out Procedures

Please follow the guidelines below when requesting an early dismissal for your child:

1. To avoid delays, please send a note with your child stating when and who will be checking them out. Your child should take the note to the attendance office the morning of checkout before school begins. Students will be given an early dismissal slip to excuse them from class at the appropriate time, and will then meet their parent, as defined by Florida Statutes, in the front office.
2. Parents must sign their child out in the front office (main building), and show a government issued picture I.D if they are unknown to school personnel. Any person who requests to sign the student out must be listed on the student's emergency card.
3. Student drivers are not permitted to leave school without parental approval. The student must bring in a parent note to the attendance office on the morning of early checkout, and the attendance office must speak directly to a parent before the student can check himself/herself out. A phone number should be listed on the note indicating where the parent can be reached to verify dismissal. If the parent prefers, he/she may call the attendance office by 9:00 a.m. to verify the checkout note.

DISTRICT STUDENT DRESS AND APPEARANCE

Current score requirements can be found on the Graduation Requirements section of the Florida Department of Education website. (www.fldoe.org) (*Note: Scores may be subject to change pending State Board Rule updates.*)

HONOR DESIGNATIONS

Summa Cum Laude
4.25 and above

Magna Cum Laude
3.75 – 4.24

Cum Laude
3.5 – 3.74

1. Grade point averages shall be calculated by converting semester grades or courses with Florida State mandated end of course exams to a 4.0 scale for all courses except dual enrollment, advanced placement, honors, and other upper level courses) so designated by individual schools. These courses, because of the degree of difficulty, shall be converted to a 5.0 scale. This shall be as follows:

Regular Courses:	A = 4.0	B = 3.0	C = 2.0	D = 1.0	F = 0.0
Weighted Courses:	A = 5.0	B = 4.0	C = 3.0	D = 2.0	F = 0.0

2. All grade point averages will be rounded off to the fourth decimal place.
3. To be eligible for an honors designation, all credits must be earned in a general academic or advanced program.
4. Florida Statute 1007.271(16) states: School districts and community colleges must weigh comparable dual enrollment courses the same as honors courses and advanced placement courses when grade point averages are calculated. Alternative grade calculation or weighting systems that discriminate against dual enrollment courses are prohibited. This rule applies to incoming 9th graders for the 2006-2007 school year and thereafter
5. When a student elects to not take a course where they have passed the state mandated EOC, the number of courses averaged in that core content area will be one less.
6. If a student is enrolled in a virtual instruction course that is used in the calculation of honor students, they must have the course completed and a final grade reported by the last day that seniors are required to attend school.

A district unweighted or weighted grade point average on the sixteen required courses and an overall grade point average of 3.0 in all courses will be used to calculate honors designations for standard diploma students. Any and all credits must be completed by the date final senior grades are due. This is to include any credits acquired by passing an end of course exam as determined by Florida Statutes.

ENVIRONMENTAL CLEANUP

Poplar Springs School

Contamination was discovered in 1992 in the former vehicle fueling area located in the northeast corner of the gravel parking lot near the sidewalk at Poplar Springs School. This contaminate was determined eligible for State-funded cleanup under the Petroleum Liability and Restoration Insurance Program in 1993. In 1992, 1,500 cubic yards of contaminated soil was removed together with the former tanks. The contamination assessment is complete and construction of a groundwater remediation system is currently pending State-funding in priority order. No soil contamination was detected above cleanup target levels but there is groundwater contamination above State drinking water standards emanating from the former tank area. There is a potable water well located on the school site and several private wells are located within 1/4-mile of the site. The school well was last sampled by the Department of Health in October 2004 with no contamination detected. The risk of exposure is considered to be relatively low because there is no soil contamination and the potable wells are upgradient from the groundwater contamination in the shallow aquifer.

Contaminant	Location (Medium)	Level Detected	Applicable Cleanup Target Level	Reason for Cleanup Target Level
		Water in pg/L Soil in mg/kg	Water in pg/L Soil in mg/kg	
Benzene	Groundwater	15000	1	Health Based
Toluene	Groundwater	15000	40	Health Based

Bethlehem School

Contamination was discovered in 1992 in the former vehicle fueling area located on the south side of the parking lot near County Road 160 at Bethlehem High School. This contamination was determined eligible for State-funded cleanup under the Petroleum Liability and Restoration Insurance Program in 1993. Contamination assessment is complete and a groundwater remediation system is scheduled to be installed in the spring of 2009, with all exposed equipment to be enclosed in a fenced compound. No soil contamination was detected above cleanup target levels. Groundwater contamination exists above State drinking water standards in the immediate vicinity of the former tank area. There are two potable water wells located on the school site and twelve private wells located within 1/4-mile of the site. However, all of these wells are located upgradient of the contamination area and have been tested by the Department of Health as recently as 8/23/07 with no contamination detected. The risk of exposure is considered to be relatively low because the contamination is limited to the shallow aquifer and is down gradient from the school wells.
